GRAPPA OBTAINED FROM PURE,
FINE POMACE

GIALLA

DISTILLED IN SMALL
COPPER BOILERS

GRAPPA OBTAINED FROM DIFFERENT VARIETIES OF POMACE FROM PIEDMONT GRAPES,

The color is a light straw yellow, due to ageing in centuries-old oak barrels which confer a tasteful aroma and softness to the palate.

THE RAW MATERIAL

Pomace from different varieties of mixed Piedmont grapes.

DISTILLATION AND PRODUCTION

Discontinuous distillation in small copper boilers and demethylation with double column.

TASTING NOTES

Being a distillate from different vineyards, it offers us a wide range of scents which, together, are harmonious and elegant; to the palate, it's elegant and soft with light toasted notes due to ageing in wood.
Color: light, straw yellow.
To the nose: bouquet of aromas, delicate.
To the palate: Intensa, note tostate delicate di vaniglia e cacao.
